LAND SETTLEMENT AGENCY

Unit   **: Infrastructure Development Unit**

Position   **: Senior Land Use Planner**

Job Summary:

The successful candidate will be responsible for carrying out professional land-use planning exercises inclusive of research associated with physical planning studies for the purpose of guiding the preparation of comprehensive Physical Development Plans for Designated Squatter Sites and Land Settlement Areas. The job also includes joint supervision of Land Use Planning Consultants carrying out similar work.

Organisational Relationships:

- Reports directly to the Manager Infrastructure Development Unit.
- Interfaces with professionals and non-professional staff involved in the planning, design and construction of projects.
- Liaises with representatives of external Agencies and the Public.

Key Duties and Responsibilities:

➢ Plan, organize and execute relevant programmes of work within the Land Settlement Agency

➢ Formulate and prepare Land Use Plans and Sub-Division Layouts for the physical development of squatter sites and land settlement areas.

➢ Collate, analyse and present data relevant to several aspects of physical planning

➢ Assist with the review of Environmental Impact Assessment

➢ Develop Terms of Reference for the engagement of Land-Use Planning Consultants and supervise their work

➢ Maintain effective liaison with individuals and agencies both within and outside of government for the purpose of ensuring the proper implementation of physical planning objectives.

Minimum Qualifications and Experience:

➢ A recognized University Degree in the field of Land Use Planning or professional qualification from a recognized University or College in the field of Land Use Planning

➢ Post Graduate Training in Land Use Planning or related field

➢ At least ten (10) years' graduate experience in the field of Land Use Planning

➢ Considerable knowledge of the theory, principles and practice of Land-Use Planning

➢ Considerable knowledge of planning legislation and laws pertaining to physical development
